- Database Management:** MongoDB, MySQL, Oracle

Technical Certifications

- MySQL Certification** – LinkedIn, October 2023
- Django Forms Development** – LinkedIn, October 2023
- jQuery Certification** – LinkedIn, September 2023
- Python GUI Development with Tkinter** – LinkedIn, July 2023
- C++ Programming Essentials** – August 2022
- C Programming Fundamentals** – July 2022

Professional Experience

Salon Website | Freelance

Dec. 2023 – Jan. 2024

- Achieved an 80% improvement in user engagement by implementing innovative strategies and creating a seamless browsing experience.
- Eliminated bugs and bottlenecks through meticulous testing, delivering a high-quality, reliable, and fast-performing website.
- Integrated smooth, cutting-edge animations to enhance the user experience and align with the salon's distinctive brand identity.

Pizza Store Web Application | Freelance

Nov. 2023 – Dec. 2024

- Developed a sophisticated pizza quality classification system, achieving an accuracy rate of over 75% using advanced data analysis techniques.
- Combined Principal Component Analysis (PCA) with tokenization, lemmatization, and stemming to identify top keywords from reviews, offering actionable insights.
- Collaborated with stakeholders to align the system with business goals, enhancing pizza quality and optimizing customer experience.

Internship Experience

Web Development Intern

Perfexion Information Technologies Private Ltd, Hyderabad, India

Jun 2023 – Sep. 2023

- Contributed to developing and maintaining dynamic web applications using JavaScript, React.js, and Django, enhancing user experience and back-end performance.
- Collaborated on implementing new features, achieving a 15% reduction in page load times and a 20% increase in engagement through responsive design.
- Integrated RESTful APIs to improve application scalability and troubleshoot front-end/back-end issues, ensuring seamless performance.

Achievements

- Website Development:** Designed and developed the UWL Film Society website, delivering a user-friendly interface and regularly updating content.
- User Engagement:** Increased website engagement by 20% and reduced page load times by 15% through responsive design and performance optimizations at Perfexion Information Technologies.
- Freelance Success:** Improved user experience for a salon website, achieving an 80% increase in engagement by integrating smooth animations and eliminating bugs.
- Data-Driven Insights:** Developed a pizza quality classification system using PCA and NLP techniques, achieving 75% accuracy and providing actionable business insights.
